PROCEDURE	SUBJECT:	
RS-27		PERSONALIZED LICENSE PLATES
DESCRIPTION AND USE:		
<p>THIS PROCEDURE PROVIDES INFORMATION AND INSTRUCTIONS TO ASSIST TAX COLLECTOR EMPLOYEES, LICENSE PLATE AGENCY EMPLOYEES, AND THE DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES FOR ISSUING REGULAR AND SPECIALTY PERSONALIZED LICENSE PLATES.</p>		
<p>I. PROVISIONS OF LAW:</p> <p>Section 320.0805, Florida Statutes, provides for the issuance of personalized license plates to the owner or lessee of any motor vehicle except a vehicle, which requires “Apportioned,” “Indefinite” or dual (two) truck plates.</p> <p>Section 320.0805(4), Florida Statutes, authorizes the department to recall any personalized license plate determined to be obscene or otherwise objectionable after issuance.</p> <p>Section 320.0805(6), Florida Statutes, authorizes a person to order a personalized license plate that has already been assigned when the original owner fails to apply for renewal or re-issuance for one year following the last year of issuance.</p> <p>Section 320.0805(8)(b)(1), Florida Statutes, provides the letters or numerals or combination of both requested by the applicant must be stamped in large bold letters and numerals, limited to the number of characters based on the specific design of the plate requested by the applicant.</p>		
<p>II. DOCUMENTATION REQUIRED AND SPECIAL INSTRUCTIONS:</p> <p>A. Application for personalized license plates must be submitted to a county license plate agency for approval or rejection of license plate choices. County license plate agency employees should carefully screen applications to ensure that obscene or objectionable choices are not processed. Applications may be submitted at any time during the year, however, 45 days (date received by manufacturer, not date of order) manufacturing time will be required before delivery of the plate. Plates will only be issued for the current registration period, unless application is made during the advance registration period (3 months preceding the owner's birth month or designated registration period). When application is made during the advance registration period and full registration tax is paid, the license plate will be issued for the following year expiration.</p>

PROCEDURE # RS-27	SUBJECT: PERSONALIZED LICENSE PLATES
---------------------------------	--

- B. The license plate agency must verify the applicant has registered the vehicle in Florida and the license tax has been collected for the current registration year.
- C. Form HSMV 83043, Application for Personalized License Plate, must be completed in detail and filed by the county license plate agency in the event future reference is required. The applicant must indicate the type of license plate being ordered and the choice must have the appropriate number of characters for the type of license plate requested. However, when the applicant is physically in the office the signed confirmation page may be used in lieu of the form HSMV 83043, Application for Personalized License Plate.
- D. Proof of Florida insurance is required. Refer to DMS Procedure RS-36 for additional insurance requirements.
- E. Fees payable to the tax collector.

III. PERSONALIZED LICENSE PLATE CONFIGURATIONS:

- A. License plates with a center design may have up to 7 characters (with an additional space or hyphen). Left design plates may have up to 5 characters (including a space or hyphen). Some special license plates may be personalized (see Exhibit A). Form HSMV 83043, Application for Personalized License Plate provides information on the combination of letters and numerals that are allowed for issuance as personalized license plates.
- B. When an application is processed in FRVIS using the letter “O,” it automatically converts to a zero. Anytime a customer requests a personalized license plate with a configuration that contains the letter O, inform the customer that we DO NOT manufacture license plates with the letter O. We use the number 0 (zero) instead. Only process license plate configurations with the number 0 (zero).
- C. Amateur radio call letters are not authorized as personalized license plates, except for motorcycles. If the call letters plus an additional character is ordered, it does become a personalized license plate. Refer to DMS Procedure RS-21 for additional information.

IV. VEHICLES/LICENSE PLATES NOT ELIGIBLE FOR PERSONALIZATION:

- A. Vehicles not eligible for personalization:
 - 1. Personalized license plates cannot be issued on any vehicle, which requires “Apportioned,” “Restricted,” “Wrecker” or dual (two) truck plates or vehicles requiring semi-annual registration.
 - 2. Personalized license plates for motorcycles are only available as a “Florida Graphic” or “Motorcycle Specialty” license plate.
- B. See exhibit C for license plates not eligible for personalization.

NOTE: Personalized license plates may be issued for trailers.

PERSONALIZED LICENSE PLATES

V. OBSCENE/OBJECTIONABLE CHOICES FOR LICENSE PLATES:

County license plate agencies must review all personalized license plate applications and reject any obscene or objectionable choices prior to processing the application to reserve a personalized license plate. The department reviews personalized license plate orders. Configurations found to be obscene or objectionable are deleted from the order, regardless of whether it is an original or 10-year mandatory replacement. The originating county is notified and asked to refer to the application on file or contact the customer to obtain another choice. The new choice must be submitted by fax to Inventory and the department will make the correction on the reservation and order. If the customer does not have another choice, advise Inventory by fax at (850) 617-5145 and a refund will be generated.

The following resources are used to determine when a personalized license plate is obscene or objectionable:

- A. An unabridged dictionary.
- B. Slang dictionary.
- C. Medical dictionary.
- D. The foreign language department at a state university.
- E. Good common sense.

VI. RECALLS:

- A. If a written complaint is received regarding a previously issued license plate that is thought to be obscene or objectionable, the configuration will be evaluated. If the license plate is found to be obscene or objectionable, a written complaint must be sent to the following address:

Division of Motorist Services
License Plate/Registration Review, MS-68
2900 Apalachee Parkway
Tallahassee, Florida 32399-0500

- B. The following steps will initiate the review and/or recall:
 - 1. The License Plate Review Committee will hold a meeting to discuss and evaluate the details of the written complaint.
 - 2. If the details of the complaint meet the necessary conditions to recall the plate, the following will occur:
 - A registration stop will be placed on the applicable license plate, specifying it as "recalled."
 - The owner will be notified via mail. A temporary license plate will be issued and sent to the customer along with a letter stating a new personalized choice must be made. The form HSMV 83043, Application for Personalized License Plate, will be attached for their use.
 - If the customer does not make a new personalized choice, a regular license plate will be issued and mailed to them.

PERSONALIZED LICENSE PLATES

VII. RESERVATION OF PERSONALIZED LICENSE PLATES:

- A.** Enter all applicable information on the Personalized Reservation screen, which **MUST** include the true meaning of the license plate in the “Reserved Plate Explanation” field. If a clerk fails to enter a valid explanation more than 3 times, the department will contact the agency to advise them that we are suspending that user’s login until the problem is corrected. The only exception would be a 10-year license plate replacement that is mailed to the agency. The clerk should enter “Processed By Mail” in the explanation field in lieu of providing a detailed explanation.

The license plate characters must be entered carefully to ensure that the license plate is manufactured correctly. Use spaces where needed to locate the alpha and numeric characters in the appropriate place on the license plate.

NOTE: An asterisk prints on the confirmation form and is signed by the customer and the tax collector's employee. An asterisk also prints on the order sheet which indicates to PRIDE where a space is needed. To find out how a personalized license plate was ordered, you must pull the order sheet from the box when the license plates are received from the plant.

If the characters are not being printed over the center design (i.e., Panther, Manatee), two spaces must be placed in the center. PRIDE will manufacture all personalized license plates “as seen” on the reservation screen and printed on the personalized license plate order. (Refer to Technical Advisory R03-01, dated 1/30/03). Although there are actually ten spaces in the license plate number field in FRVIS, only the first eight are applicable for personalized license plates. The law permits a maximum of seven alphanumeric characters on license plates with a center logo. Spaces or hyphens may be used as long as the total number of digits does not exceed eight. License plates with a left logo must not exceed five characters including spaces and hyphens.

NOTE: An inquiry should be made on all voided transactions to be sure the transaction did void. If it did not, fax a copy of the voided transaction to Inventory at (850) 617-5145 so the reserved license plate may be deleted from the order.

- B.** **If an existing personalized license plate configuration in FRVIS shows the customer’s plate has expired and he/she hasn’t renewed the plate for a period of one (1) year, a different customer may reserve the personalized license plate.**

Example : **The personalized license plate expired April 24, 2014. The owner has the option to renew until April 24, 2015. If he/she doesn’t renew during that time, the reservation for the new customer may be processed on April 25, 2015 or later.**

NOTE: **Even if an owner surrenders their license plate prior to April 24, 2015, their personalized configuration may NOT be reserved for a different customer until AFTER April 24, 2015, as shown in the above example. However, the owner MAY relinquish their rights to the plate in writing (see section XIII of this procedure).**

PROCEDURE # RS-27	SUBJECT: PERSONALIZED LICENSE PLATES
---------------------------------	--

VIII. PERSONALIZED LICENSE PLATE ORDERS:

The department generates all personalized license plate orders. A minimum of 45 workdays from the date the order is received by PRIDE is required for manufacturing time. At no time should a county license plate agency directly contact PRIDE License Plate Plant to check on an order or place a priority order. Such inquiries must be directed to the department.

- A. Reorders for license plates incorrectly manufactured should be made by faxing the following information to Inventory at (850) 617-5145:
1. A copy of the form HSMV 83043, Application For Personalized License Plate, which was completed by the customer.
 2. A copy of the personalized license plate that was manufactured incorrectly, with a clear explanation of how the license plate should be ordered.
 3. A copy of the confirmation form showing the configuration signed by the customer and the tax collector's employee.

NOTE: If the personalized license plate order was for a 10-year replacement that was mailed in to the county tax collector's office (customer would not have been present to sign the confirmation form), a signed statement (in lieu of the signed confirmation form) to that effect, is required from the county tax collector's employee.

- B. When a personalized license plate is ordered by the county with the incorrect sheeting for any of the following reasons, the transaction must be processed using PLATE ISSUE ERROR transaction (a new order will be generated) to charge or adjust the appropriate fees:
1. Incorrectly ordered by the county.
 2. Manufactured incorrectly by PRIDE.
- C. When a personalized license plate is ordered incorrectly for any of the following reasons, the transaction must be processed as a new reservation using "Customer Request" as the reason code to charge the appropriate fees:
1. Incorrectly requested by customer.
 2. Over 90 days.

IX. DELIVERY OF PERSONALIZED LICENSE PLATES:

The personalized license plate is delivered to the county license plate agency for issuance to the applicant. When the license plate agency receives the personalized license plate, it should be verified for accuracy. If the license plate is manufactured incorrectly, follow the instructions in section VIII of this procedure.

NOTE: When a license plate was used for credit and the new personalized plate is delivered, the registered owner is no longer required to surrender the credit plate to the license plate agency.
