RS-27	PERSONALIZED LICENSE PLATES
DESCRIPTION AND USE:	
THIS PROCEDURE PROVIDES INFORMATION AND INSTRUCTIONS TO ASSIST EMPLOYEES OF TAX COLLECTORS, LICENSE PLATE AGENTS, AND THE DEPARTMENT OF HIGHWAY SAFETY AND MOTOR VEHICLES IN THE ISSUANCE OF REGULAR AND SPECIALTY PERSONALIZED LICENSE PLATES.	
<p>I. PROVISIONS OF LAW:</p> <p>Section 320.0805, Florida Statutes, provides for the issuance of personalized license plates to the owner or lessee of any motor vehicle, except a vehicle which requires “Apportioned,” “Indefinite” or dual (two) truck plates.</p> <p>Section 320.0805(4), Florida Statutes, authorizes the department to reject requests and recall any personalized license plate determined to be obscene or otherwise objectionable after issuance.</p> <p>Section 320.0805(6), Florida Statutes, authorizes a person to order a personalized license plate that has already been assigned when the original owner fails to apply for renewal or re-issuance for one year following the last year of issuance.</p> <p>Section 320.0805(8)(b)(1), Florida Statutes, provides the letters or numerals, or combination of both, requested by the applicant must be stamped in large bold letters and numerals, limited to the number of characters based on the specific design of the plate requested by the applicant.</p> <p>II. DOCUMENTATION REQUIRED AND SPECIAL INSTRUCTIONS:</p> <p>A. Application for personalized license plates must be submitted to a county license plate agent for approval or rejection of license plate choices. County license plate agent employees should carefully screen applications to ensure that obscene or objectionable choices are not processed. Applications may be submitted at any time during the year, however, 45 days (date received by manufacturer, not date of order) manufacturing time will be required before delivery of the plate. Plates will only be issued for the current registration period, unless application is made during the advance registration period (3 months preceding the owner's birth month or designated registration period). When application is made during the advance registration period and full registration tax is paid, the license plate will be issued for the following year expiration.</p>

PROCEDURE #	SUBJECT:
RS-27	PERSONALIZED LICENSE PLATES

- B. The license plate agent must verify the customer has registered the vehicle in Florida and the license tax has been collected for the current registration year.
- C. Form [HSMV 83043, Application for Personalized License Plate](#), must be completed in detail and filed by the county license plate agent in the event future reference is required. The customer must indicate the type of license plate being ordered and the choice must have the appropriate number of characters for the type of license plate requested. However, when the customer is physically in the office the signed confirmation page may be used in lieu of form HSMV 83043.
- D. Proof of Florida insurance is required. Refer to Procedure [RS-36](#) for additional insurance requirements.
- E. Fees.

III. PERSONALIZED LICENSE PLATE CONFIGURATIONS:

- A. License plates with a center design may have up to 7 characters (with an additional space or hyphen). Left design plates may have up to 5 characters (including a space or hyphen). Some special license plates may be personalized (see [Exhibit A](#)). Form HSMV 83043 provides information on the combination of letters and numerals that are allowed for issuance as personalized license plates.
- B. When an application is processed in FRVIS using the letter “O,” it automatically converts to a zero. When a request for a personalized license plate contains the letter O, inform the customer that we DO NOT manufacture license plates with the letter O. We use the number 0 (zero) instead. Only process license plate configurations with the number 0 (zero).
- C. Amateur radio call letters are not authorized as personalized license plates, except for motorcycles. If the call letters plus an additional character is ordered, it does become a personalized license plate. Refer to Procedure [RS-21](#) for additional information.

IV. VEHICLES/LICENSE PLATES NOT ELIGIBLE FOR PERSONALIZATION:

- A. Vehicles not eligible for personalization:
 - 1. Personalized license plates cannot be issued on any vehicle, which requires “Apportioned,” “Restricted,” “Wrecker” or dual (two) truck plates or vehicles requiring semi-annual registration.
 - 2. Personalized licenses plates for motorcycles are only available as a “Florida Graphic” or “Motorcycle Specialty” license plate.
- B. See [Exhibit C](#) for license plates not eligible for personalization.

Personalized license plates may be issued for trailers.

PROCEDURE #	SUBJECT:
RS-27	PERSONALIZED LICENSE PLATES

V. **OBSCENE/OBJECTIONABLE LICENSE PLATES:**

County license plate agencies must review all personalized license plate applications and reject any obscene or objectionable choices before processing the reservation of a personalized license plate. The department reviews personalized license plate orders. Configurations found to be obscene or objectionable are deleted from the order, regardless of whether it is an original or 10-year mandatory replacement.

The Inventory Control Unit reviews all personalized license plate orders. Configurations considered obscene or objectionable are withheld from the order and submitted for further review. These configurations are then submitted to management to determine if the configuration should be allowed, rejected or recalled.

ALLOWED – If the configuration is allowed, the Inventory Control Unit will place the order and it will be sent to the county that ordered the license plate.

REJECTIONS - If the original request is rejected, a letter and refund check of the fees paid will be sent to the customer. The letter will explain that the order has been canceled and provide instructions to obtain another license plate at the local county tax collector office or license plate agency. All appropriate fees will be required.

RECALLS - If the request is for a 10-year replacement plate, a letter, refund check for fees paid, return envelope and a 90-day temporary license plate will be sent to the customer. The letter will explain that the order has been canceled and provide instructions to obtain another license plate at the local county tax collector office or license plate agency. All appropriate fees will be required.

VI. **COMPLAINTS**

Complaints regarding personalized license plates may be sent to:

Division of Motorist Services
License Plate/Registration Review, MS-74
2900 Apalachee Parkway
Tallahassee, Florida 32399-0500

Complaints will be submitted to management for review if the configuration is considered obscene or objectionable. A decision will be made to allow or recall the configuration. If it is allowed, no further action will be necessary. If it is recalled, a letter, return envelope and a 90-day temporary license plate will be sent to the customer. The letter will explain that the license plate has been recalled and must be surrendered to Division of Motorist Services in Tallahassee. The customer must also indicate if they would like a regular license plate or another personalized license plates as their replacement.

PROCEDURE #	SUBJECT:
RS-27	PERSONALIZED LICENSE PLATES

VII. RESERVATION OF PERSONALIZED LICENSE PLATES:

- A. Enter all applicable information on the Personalized Reservation screen, which **MUST** include the customer's explanation of what the personalization means in the "Reserved Plate Explanation" field. If a clerk fails to enter a valid explanation more than 3 times, the department will contact the agency to advise them that we are suspending that user's login until the problem is corrected. The only exception would be a 10-year license plate replacement that is mailed to the agency. The clerk should enter "Processed By Mail" in the explanation field in lieu of providing a detailed explanation.

The license plate characters must be entered carefully to ensure that the license plate is manufactured correctly. Use spaces where needed to locate the alpha and numeric characters in the appropriate place on the license plate.

Entering Personalization in FRVIS

Although there are actually ten spaces in the license plate number field in FRVIS, only the first eight are applicable for personalized license plates. The law permits a maximum of seven alphanumeric characters on license plates with a center logo. Spaces or hyphens may be used if the total number of characters does not exceed eight. License plates with a left logo must not exceed five characters including spaces and hyphens.

An asterisk prints on the confirmation form and is signed by the customer and the license plate agent. An asterisk also prints on the order sheet which indicates to PRIDE where a space is needed. To find out how a personalized license plate was ordered, you must pull the order sheet from the box when the license plates are received from the plant.

If the characters are not being printed over the center design (i.e., Panther, Manatee), two spaces must be placed in the center. PRIDE will manufacture all personalized license plates "as seen" on the reservation screen and printed on the personalized license plate order.

See [Exhibit D](#) for more information about how to enter the information in FRVIS so that the customer receives the plate appearing as he/she expects.

Voided Transactions

An inquiry should be made on all voided transactions to be sure the transaction did void. If it did not, fax a copy of the voided transaction to Inventory at (850) 617-5145 so the reserved license plate may be deleted from the order.

PROCEDURE #	SUBJECT:
RS-27	PERSONALIZED LICENSE PLATES

- B. If an existing personalized license plate configuration in FRVIS shows the customer's plate has expired and he/she hasn't renewed the plate for a period of one (1) year, a different customer may reserve the same personalized license plate.

Example:

The personalized license plate expired April 24, 2014. The owner has the option to renew until April 24, 2015. If he/she doesn't renew during that time, the reservation for the new customer may be processed on April 25, 2015 or later.

If an owner surrenders their license plate prior to April 24, 2015, their personalized configuration may NOT be reserved for a different customer until AFTER April 24, 2015, as shown in the above example. However, the owner MAY relinquish their rights to the plate in writing (see section XIII of this procedure).

VIII PERSONALIZED LICENSE PLATE ORDERS:

The department generates all personalized license plate orders. A minimum of 45 workdays from the date the order is received by PRIDE is required for manufacturing time. At no time should a county license plate agent directly contact the PRIDE License Plate Plant to check on an order or place a priority order. Such inquiries must be directed to the department.

- A. Reorders for license plates incorrectly manufactured should be made by faxing the following information to Inventory at (850) 617-5145:
1. A copy of HSMV 83043 which was completed by the customer.
 2. A copy of the personalized license plate that was manufactured incorrectly, with a clear explanation of how the license plate should be ordered.
 3. A copy of the confirmation form showing the configuration signed by the customer and the license plate agent.

Mail-in Personalization Orders

If the personalized license plate order was for a 10-year replacement that was mailed in to the license plate agent office (customer would not have been available to sign the confirmation form), include a signed statement by the license plate agent (in lieu of the signed confirmation form).

- B. When a personalized license plate is ordered by the county with the incorrect sheeting for any of the following reasons, the transaction must be processed using PLATE ISSUE ERROR transaction (a new order will be generated) to charge or adjust the appropriate fees:
1. Incorrectly ordered by the county.
 2. Manufactured incorrectly by PRIDE.

STATE OF FLORIDA
Division of Motorist Services

PROCEDURE # RS-27	SUBJECT: PERSONALIZED LICENSE PLATES
<p>C. When a personalized license plate is ordered incorrectly for any of the following reasons, the transaction must be processed as a new reservation using “Customer Request” as the reason code to charge the appropriate fees:</p> <ol style="list-style-type: none">1. Incorrectly requested by customer.2. Over 90 days. <p>IX. DELIVERY OF PERSONALIZED LICENSE PLATES:</p> <p>The personalized license plate is delivered to the county license plate agent for issuance to the customer. When the license plate agent receives the personalized license plate, it should be verified for accuracy. If the license plate is manufactured incorrectly, follow the instructions in section VIII of this procedure.</p> <p>When a license plate was used for credit and the new personalized plate is delivered, the registered owner is no longer required to surrender the credit plate to the license plate agent.</p> <p>X. RENEWALS AND TRANSFERS OF PERSONALIZED LICENSE PLATES: Renewals and transfers may be processed through the county license plate agent.</p> <p>XI. EXPIRATION OF LICENSE PLATES: License plates will have the same expiration date as the previous license plate.</p> <p>XII. REPLACEMENT LICENSE PLATE: Applications for replacement license plates may be processed by the county license plate agent.</p> <p>A. STOLEN (not lost): If a personalized license plate has been stolen, a replacement license plate (different configuration) will be issued at no charge. However, to replace the stolen plate with the same configuration, proof must be provided from a local law enforcement agency that the plate has been removed from the FCIC file. If this cannot be provided, an application for a new choice must be completed or a regular series license plate may be issued.</p> <p>If the license plate has been removed from the FCIC file, the license plate must be replaced with the reason code “LS” and replacement fees are due.</p> <p>B. LOST (not stolen): If a personalized license plate has been lost, a replacement license plate may be issued with the same characters. Replacement fees are required.</p> <p>C. DEFACED OR DAMAGED: Personalized license plates that are surrendered because they are defaced or damaged may be replaced with a license plate having the same characters. This may be processed in the county license plate agent. Replacement fees are required for a defaced or damaged license plate, unless law enforcement has issued a citation to the customer. If a citation has been issued to the customer, a copy of the citation must be submitted along with the defaced or damaged license plate.</p>
