SUBJECT:

DISABLED PERSON PARKING PERMIT

[Section 320.0848, Florida Statutes](#), provides for parking permit placards to be issued for use by certified disabled persons who have long-term, permanent or temporary mobility impairment or who are certified as legally blind or temporarily sight-impaired.

Section 320.0848(1)(b)(2), Florida Statutes, states: “The certification of disability which is required under subparagraph 1 must be provided by a physician licensed under chapter 458, chapter 459, or chapter 460, by a podiatric physician licensed under chapter 461, by an optometrist licensed under chapter 463, by an Advanced Practice Registered Nurse licensed under chapter 464 under the protocol of a licensed physician as stated in this subparagraph, by a physician assistant licensed under chapter 458 or chapter 459 or by a similarly licensed physician from another state if the application is accompanied by documentation of the physician’s licensure in the other state and a form signed by the out-of-state physician verifying his or her knowledge of this state’s eligibility guidelines.”

Section 320.0848(1)(d), Florida Statutes, provides that the department shall renew the disabled parking permit of any person certified as permanently disabled on the application if the person provides a certificate of disability issued within the last 12 months pursuant to this subsection.

Section 320.0848(2)(a), Florida Statutes, provides for cases where the severity of the disability prevents a disabled person from physically visiting or being transported to a driver license or tax collector office to obtain a driver’s license or identification card. A certifying physician must sign the exemption section of the department’s parking permit application (form HSMV 83039) to exempt the disabled person from having a driver’s license or identification card and number for display on the parking permit.

Section 320.0848(2)(d), Florida Statutes, provides that a person who claims a disabled parking permit has been lost or stolen must submit an application and a certificate of disability (form HSMV 83039) issued within the last 12 months pursuant to subsection (1)(d) shown above. If placard has been stolen and customer presents a police report, there is no replacement fee.

Section 320.0848(8), Florida Statutes, provides that a parking enforcement specialist in addition to a law enforcement officer may confiscate a disabled parking permit for specified reasons.

[Section 322.051\(1\), Florida Statutes](#), provides that any person who is 5 years of age or older, or any person who has a disability, regardless of age, who applies for a disabled parking permit under 320.0848, may be issued an identification card by the department upon completion of an application and payment of an application fee.

[Section 458.347\(2\)\(e\), Florida Statutes](#), defines Physician Assistant as a person who is a graduate of an approved program or its equivalent or meets standards approved by the boards and is licensed to perform medical services delegated by the supervising physician.

Section 458.347(5), Florida Statutes, authorizes a Physician Assistant to perform medical services when such services are rendered within the scope of an approved program.

DISABLED PERSON PARKING PERMIT

II. GENERAL INFORMATION ON PERMANENT OR LONG-TERM PERMITS:

- A. A permanent or long-term disabled person parking permit may be issued to:
1. A person certified as being unable to walk 200 feet without stopping to rest due to specific disabilities or certified as legally blind.
  2. An organization which can adequately demonstrate a bona fide need for such permit because the organization provides regular transportation services to persons who are certified as having specific disabilities that limit or impair the ability to walk or are certified as legally blind.
- B. A disabled person applying for a permanent or long-term parking permit must have a valid Florida driver license or Florida identification card. The permanent or long-term parking permit will be issued for a period of up to four years and will expire on the disabled person's birthday. All organizations applying for the permanent or long-term parking permit must have an FEID number and be issued a placard for a period of four years with an expiration of June 30. If the organization is an individual, use the Social Security Number in lieu of an FEID number. (examples: taxi cab driver that is self-employed or an individual that is self-employed)
- This requirement may be waived if the certifying physician indicates on form [HSMV 83039, Application for Disabled Person Parking Permit](#) (Revised 10/18 or later), by checking the appropriate boxes, that the severity of the disability prevents the applicant from obtaining a driver license or identification card.
- C. When a certifying authority determines a permanent parking permit is needed before the temporary permit expires, the temporary parking permit must be cancelled prior to the issuance of the permanent parking permit.
- D. Advance registration is allowed on the issuance of a permanent or long-term parking permit anytime during the three months preceding the expiration date.
- E. Only one permanent or long-term disabled person parking permit may be issued for an individual unless the individual qualifies for one of the following:
1. If the applicant is a quadriplegic, the space on form HSMV 83039 must be checked by the applicant.
  2. If the applicant is a frequent traveler, the space on form HSMV 83039 must be checked by the applicant.

EXAMPLE: When an individual must leave a permit in a motor-home that is parked in a handicapped parking space in the park and needs the second permit to use in another vehicle.

- F. An organization can be issued as many permanent or long-term disabled parking permits as it has vehicles that are used to transport disabled persons.
- G. An additional permanent or long-term disabled parking permit issued to an individual or an organization must have the same expiration date as the primary permit, regardless of when it is issued.
- H. A motorcycle wheelchair license plate can be issued as personalized in FRVIS.
- I. A wheelchair symbol suffix license plate may be issued to a disabled person who owns or co-owns a vehicle and qualifies for a disabled person parking permit. Additionally, a Disabled Veteran who has a Disabled Veteran license plate and qualifies for a permanent or long-term disabled parking permit may be issued a Disabled Veteran Wheelchair license plate. (Refer to [RS-17](#) and [RS-19](#) for additional information).

III. GENERAL INFORMATION ON TEMPORARY PERMITS:

- A. A temporary disabled person parking permit may be issued to a person certified as temporarily disabled in such a way that limits or impairs the ability to walk due to specific disabilities or is temporarily sight impaired.
- B. A disabled person applying for a temporary parking permit must have a valid Florida driver license or a Florida identification card unless the disabled person/applicant resides out of state or out of country. (See Sections VIII and IX for application requirements for out of state and out of country residents).
- C. The temporary parking permit will only be issued for the period indicated by a physician, an Advanced Practice Registered Nurse, or physician's assistant, but it may not exceed 6 months from the date of issuance. If the person is still disabled when the temporary parking permit expires, a new application with certification is required.

X. RENEWAL:

A. Any county tax collector's office or license plate agent may process renewals of permanent parking permits. A person certified as permanently disabled must provide a certificate of disability (form HSMV 83039) issued within the last 12 months to renew their disabled parking permit. This means that form HSMV 83039 must be signed by the medical provider within the last 12 months of the disabled person applying for a renewal. In FRVIS, the certification authorization date (CERT AUTH DATE) is the date the medical provider signed form HSMV 83039.

B. A veteran who has been previously evaluated and certified by the United States Department of Veterans Affairs or any branch of the United States Armed Forces as permanently and totally disabled from a service-connected disability may provide a United States Department of Veterans Affairs Summary of Benefits Letter which can be downloaded from eBenefits, issued within the last 12 months in lieu of a certificate of disability. See Exhibit B for acceptable documentation.

If a veteran's combined service-connected evaluation is less than 100%; however, the veteran is being paid at the 100% rate because he/she is unemployable due to a service-connected disability, and the veteran is considered totally and permanently disabled due to a service-connected disability, the veteran meets the requirements for a disabled parking permit renewal. (See Exhibit B).

When renewing a Disabled Parking Permit, the clerk will enter DVA in the CERT AUTH NUM field. The CERT AUTH field will pre-populate with the Department of Veterans Affairs instead of the physician's name. The clerk will process the transaction as usual.

C. Temporary parking permits are not renewable. If a customer requests another temporary parking permit to replace an expired temporary parking permit, the customer must complete and submit a new form HSMV 83039 signed by the certifying physician.

XI. REPLACEMENT PARKING PERMITS:

Any county tax collector's office or license plate agent may process replacements by submitting the following:

A. A certificate of disability (form HSMV 83039) issued to the disabled applicant within the last 12 months. This means that the medical provider signed form HSMV 83039 within the last 12 months of the disabled person applying for a replacement. In FRVIS, the certification authorization date (CERT AUTH DATE) is the date the physician signed form HSMV 83039.
