I. PROVISIONS OF LAW:

Section 92.525, Florida Statutes, reads:

1) When it is authorized or required by law, by rule of an administrative agency, or by rule or order of court that a document be verified by a person, the verification may be accomplished in the following manner:

(a) Under oath or affirmation taken or administered before an officer authorized under s. 92.50 to administer oaths; or (b) By the signing of the written declaration prescribed in subsection (2).

(2) A written declaration means the following statement: "Under penalties of perjury, I declare that I have read the foregoing [document] and that the facts stated in it are true," followed by the signature of the person making the declaration, except when a verification on information or belief is permitted by law, in which case the words "to the best of my knowledge and belief" may be added. The written declaration shall be printed or typed at the end of or immediately below the document being verified and above the signature of the person making the declaration.

(3) A person who knowingly makes a false declaration under subsection (2) is guilty of the crime of perjury by false written declaration, a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

Section 319.21(1), Florida Statutes, states, “No manufacturer, distributor, licensed dealer, or other person shall sell or otherwise dispose of a new motor vehicle or a new mobile home to a distributor, licensed dealer, or other person without delivering to such distributor, licensed dealer, or other person a manufacturer's statement of origin duly executed and with such assignments thereon as may be necessary to show title in the purchaser thereof, on forms approved by the department; nor shall any distributor, licensed dealer, or other person purchase, acquire, or bring into the state, except for temporary use and not for sale, a new motor vehicle or a new mobile home without obtaining from the seller thereof the manufacturer's statement of origin.

Such statement of origin shall be in the English language. In addition to the assignments stated herein, the manufacturer's statement of origin shall contain a certification of the identification and description of the motor vehicle or mobile home delivered and the name and address of the distributor, licensed dealer, or other person to whom the motor vehicle or mobile home was originally sold, over the signature of an authorized official of the manufacturer who made the original delivery; however, no statement of origin shall be required for any new motor vehicle or new mobile home purchased from a person other than a manufacturer or a representative of a manufacturer in a state which does not require such statement of origin. Prior to the issuance of a certificate of title for any such new motor vehicle or new mobile home, the holder of any security interest therein may demand and receive from the owner thereof the manufacturer's statement of origin and may retain it as long as he or she holds the security interest.”

Revision(s): Removed “out of state motor vehicle dealer (on their letterhead)” from IV Miscellaneous B(2)(b). Removed example and added “with a copy of the surety bond” to IV (Y).
Section 319.21(2), Florida Statutes, states, “When a motor vehicle is built in two or more stages, each manufacturer must provide a manufacturer's statement of origin for each stage.”

Section 319.23, Florida Statutes, establishes that an application for a certificate of title shall be made on a form prescribed by the department, that it will be filed with the department and shall be accompanied by the fee prescribed in this chapter. If the motor vehicle or mobile home for which application for a certificate of title is made is a new motor vehicle or mobile home for which one or more manufacturers' statements of origin are required by the provisions of s. 319.21, the application for a certificate of title shall be accompanied by all such manufacturers' statements of origin. If a certificate of title has not previously been issued for a motor vehicle or mobile home in this state, the application must be accompanied by an out-of-state certificate of title, bill of sale, or other evidence of ownership required by the law of the state or county from which the motor vehicle or mobile home was brought into this state. This section also requires the seller and purchaser to verify the vehicle identification number of the motor vehicle on a sworn affidavit or on a form prescribed by this department.

Section 319.23(6)(a), Florida Statutes, provides that in the case of the sale of a motor vehicle or mobile home by a licensed dealer to a general purchaser, the certificate of title must be obtained in the name of the purchaser by the dealer upon application signed by the purchaser, and in each other case such certificate must be obtained by the purchaser. In each case of transfer of a motor vehicle or mobile home, the application for a certificate of title, a corrected certificate, or an assignment or reassignment must be filed within 30 days after the delivery of the motor vehicle or mobile home to the purchaser. An applicant must pay a fee, in addition to all other fees and penalties required by law, for failing to file such application within the specified time.

In the case of the sale of a motor vehicle by a licensed motor vehicle dealer to a general purchaser who resides in another state or country, the dealer is not required to apply for a certificate of title for the motor vehicle; however, the dealer must transfer ownership and reassign the certificate of title or manufacturer's certificate of origin to the purchaser, and the purchaser must sign an affidavit, as approved by the department, that the purchaser will title and register the motor vehicle in another state or country.

Section 319.23(9), Florida Statutes, provides that the title certificate or application for title must contain the applicant's full first name, middle initial, last name, date of birth, sex, and the license plate number. An individual applicant must provide a valid driver license or identification card issued by Florida or another state, or a valid passport. A business applicant must provide a federal employer identification number, if applicable, verification that the business is authorized to conduct business in the state, or a Florida city or county business license or number. In lieu of the license plate number, the individual or business applicant must provide an affidavit certifying that the motor vehicle to be titled will not be operated upon the public highways of this state.

Section 319.27(7), Florida Statutes, provides that the department shall establish and administer an electronic titling program that requires the electronic recording of vehicle title information for new, transferred, and corrected certificates of title. Lienholders shall electronically transmit liens and lien satisfactions to the department in a format determined by the department. Individuals and lienholders who the department determines are not normally engaged in the business or practice of financing vehicles are exempt from the electronic titling requirement.

Section 319.40(2), Florida Statutes, authorizes the department to issue an electronic certificate of title in lieu of printing a paper title.

Section 319.40(3), Florida Statutes, authorizes the department may collect electronic mail addresses and use electronic mail in lieu of the United States Postal Service as a method of notification. However, any notice regarding the potential forfeiture or foreclosure of an interest in property must be sent via the United States Postal Service.

Section 320.02 (2)(a)2, Florida Statutes, provides that if the vehicle is registered to an individual, the application shall include the name and street address of the permanent residence of a close relative or friend who is a resident of this state.
If the vehicle is registered to an active duty member of the Armed Forces of the United States who is a Florida resident, the active duty member is exempt from the requirement to provide the street address of a permanent residence.

Section 320.27, Florida Statutes, states in part, “A motor vehicle dealer may apply for a certificate of title to a motor vehicle required to be registered under s. 320.08(2)(b), (c), and (d), using a manufacturer’s certificate of origin as permitted by s. 319.23(1), only if such dealer is authorized by a franchised agreement as defined in s. 320.60(1), to buy, sell, or deal in such motor vehicle and is authorized by such agreement to perform delivery and preparation obligations and warranty defect adjustments on the motor vehicle; provided this limitation shall not apply to recreational vehicles, van conversions, or any other motor vehicle manufactured on a truck chassis. The transfer of a motor vehicle by a dealer not meeting these qualifications shall be titled as a used vehicle.”

Section 328.01, Florida Statutes, establishes that an application for a certificate of title will be filed with the department and shall be accompanied by the fee prescribed in this chapter. If the vessel is new, a manufacturer’s certificate of origin is required to be submitted with the application for certificate of title. The owner of a manufactured vessel, initially sold in another state or country for which an application for initial title is being made, shall establish proof of ownership, by submitting the original copy of the manufacturer’s certificate of origin, provided the vessel was initially sold in a state or country requiring the issuance of such statement, or the original copy of the executed bill of sale or dealer’s invoice. (See Exhibit B for states requiring issuance of Manufacturer’s Certificate of Origin.) If a vessel has been previously titled/registered in another state, the application must be accompanied by an out-of-state certificate of title, if a title state, or the original registration, if not a title state, a bill of sale, or other evidence of ownership required by the law of the state or country from which the vessel was brought into this state.

Section 328.01(1)(a), Florida Statutes, provides that the owner of a vessel which is required to be titled shall apply to the county tax collector for a certificate of title. The application shall include the true name of the owner, the residence or business address of the owner, and the complete description of the vessel, including the hull identification number, except that an application for a certificate of title for a homemade vessel shall state all the foregoing information except the hull identification number. The application shall be signed by the owner and shall be accompanied by personal or business identification and the prescribed fee. An individual applicant must provide a valid driver license or identification card issued by this state or another state or a valid passport. A business applicant must provide a federal employer identification number, if applicable, verification that the business is authorized to conduct business in the state, or a Florida city or county business license or number.

Section 328.01(2)(c), Florida Statutes, provides the requirements for issuing a certificate of title for a homemade vessel. See DMS Procedure VSTL-09, Homemade Vessel Titling Requirements.

Section 328.01(2)(f), Florida Statutes, provides that an application for Florida registration and title of a previously documented vessel by the Federal Government must be accompanied by a properly executed “Release-from-Documentation” certificate obtained from the US Coast Guard. This “Release from Documentation” must identify the last documented owner. If the “Release-from-Documentation” certificate identifies the last documented owner as someone other than the applicant, the applicant must provide an executed bill of sale. Additionally, if a transfer of ownership has occurred, the applicant must pay the applicable sales tax or provide proof of payment. If exempt from payment of sales tax, the applicant must provide applicable sales tax exemption information on form HSMV 82040 or HSMV 82041.

Section 328.03, Florida Statutes, provides that each vessel that is operated, used, or stored on the waters of this state must be titled unless it meets one of the exemptions described in DMS Procedure VSTL-06 Vessel Titling Exemptions.
**Section 328.03(2), Florida Statutes**, provides that a person shall not operate, use, or store a vessel for which a certificate of title is required unless the owner has received from the Department of Highway Safety and Motor Vehicles a valid certificate of title for such vessel. However, such vessel may be operated, used, or stored for a period of up to 180 days after the date of application for a certificate of title while the application is pending.

**Section 328.15(5)(b), Florida Statutes**, authorizes the department to establish and administer an electronic titling program that requires the recording of vessel title information for new, transferred, and corrected certificates of title. Lienholders shall electronically transmit liens and lien satisfactions to the department in a format determined by the department. Individuals and lienholders who the department determines are not normally engaged in the business or practice of financing vessels are not required to participate in the electronic titling program.

**Section 328.30(2), Florida Statutes**, authorizes the department to issue an electronic certificate of title in lieu of printing a paper title.

**Section 328.30(3), Florida Statutes**, authorizes the department to collect electronic mail addresses and use electronic mail in lieu of the United States Postal Service in order to provide renewal notices.

### II. GENERAL INFORMATION:

**A.** Motorcycles (not mopeds) are NOT titled or registered based on cubic centimeters (cc’s); however, motorcycles are titled or registered as defined in section 320.01(27), Florida Statutes, as follows:

- **Motorcycle** means any motor vehicle having a seat or saddle for the use of the rider and designed to travel on not more than three wheels in contact with the ground, but excluding a tractor, a moped, or a motor vehicle in which the operator is enclosed by a cabin unless it meets the requirements set forth by the National Highway Traffic Safety Administration (NHTSA) for a motorcycle.
- A motorcycle enclosed by a cabin that does not meet NHTSA requirements should be titled as an automobile. The manufacturer’s certificate of origin (MCO) will indicate if the motorcycle should be titled as an automobile or motorcycle. For NHTSA approved tri-vehicles, refer to Procedure TL-67.
- If a customer owns a motorcycle that was not titled, but now according to the above definition requires a title, refer to Procedure TL-07, II, D, for titling information.

**B.** Mopeds are NOT titled; however, they are registered as defined in s. 320.01(28), Florida Statutes, as follows:

- **Moped** means any vehicle with pedals to permit propulsion by human power, having a seat or saddle for the use of the rider and designed to travel on not more than three wheels, with a motor rated not in excess of 2 brake horsepower and not capable of propelling the vehicle at a speed greater than 30 miles per hour on level ground, and with a power-drive system that functions directly or automatically without clutching or shifting gears by the operator after the drive system is engaged. If an internal combustion engine is used, the displacement may not exceed 50 cc or 2.0 brake horsepower.

**C.** If a MCO states the vehicle is a “motor scooter”, use the definition of “motorcycle” in section 320.01(27) or “moped” in section 320.01(28), Florida Statutes, to determine if the vehicle should be titled and registered as a motorcycle or registered as a moped. The MCO must show the cc’s of the motor for a motorcycle or the brake horsepower (bhp) for a moped.

**D.** An individual/business selling mopeds or motorcycles with a motor displacement of 50 cc’s or less is NOT required to obtain a dealer’s license. If the individual/business is not a licensed dealer, it is exempt from the requirement to have the customer complete a federal odometer statement at the time of sale. However, the odometer disclosure on the MCO must be completed.

<tr>
<td>E.</td>
<td>If the MCO indicates that the motorcycle is NOT for highway use, refer to TL-44 for <strong>instructions on off-highway motorcycles.</strong></td>
</tr>
<tr>
<td>F.</td>
<td>The department must approve the MCO for a motorcycle (with an engine displacement of 50 ccs or less), which is NOT required to be sold by a Florida licensed dealer, has a seat or saddle for use by the rider, is designed to travel on not more than three wheels in contact with the ground, but excludes a tractor, moped, or vehicle. If the motorcycle is enclosed by a cabin and does not meet NHTSA requirements for a motorcycle, it would be declared an automobile and titled/registered accordingly. The department does not approve the MCO for a moped since a moped only requires a registration. For a list of all recently approved MCO’s for motorcycles (with an engine displacement of 50 ccs or less), visit the website below. If documentation indicates that the motorcycle (engine displacement of 50 cc’s or less), was purchased out of state by an individual or private company for their personal use (via the Internet or other means), the paperwork should be processed even if it is not on the “Motorcycle List-Displacement of 50 cc’s or less.” If the motorcycle is on the list, the MCO must be on secure paper. Visit <a href="http://flhsmv.gov/dmv/bulletins/">http://flhsmv.gov/dmv/bulletins/</a>, select the current year, then select the most recent Motorcycle List – Engine Displacement of 50 cc’s or Less or 1492 watts or Less. This “Motorcycle List-Displacement of 50 cc’s or less” should not be used for motorcycles with a displacement of more than 50 ccs. A dealer license is required if the displacement is above 50 cc’s.</td>
</tr>

For applicable fees, refer to the Schedule of Motor Vehicle, Mobile Home, Off-Highway and Vessel Title and Lien Fees chart at the link below. (See Exhibit D). <a href="http://www3.flhsmv.gov/DMV/Proc/Fees/Fees-01.PDF">http://www3.flhsmv.gov/DMV/Proc/Fees/Fees-01.PDF</a></td>
</tr>
</tbody>
</table>

---

TL-10-05
L. When a mobile home is constructed with separate sections each section must be titled separately. This does not apply to a mobile home with body code (MD) modular home which is considered to be one unit.

M. On multi-sectioned mobile homes, record the complete amount of sales tax collected for the whole purchase price on the “A” section. On the remaining sections of the mobile home, state in the “Comment Desc.” field “Sales Tax collected on Side A, title number XXXXXX.” If the transaction is through a dealer, the total sales tax collected should be entered on the “A” section application, “Dealer Sales Tax Report” form 82040 and reassignment. On the remaining sections, use the Sales Tax Exemption Certification, mark “Other” and indicate the title number where sales tax was collected on form 82040.

N. If the proof of ownership is in a language other than English and there is no translation in the POLK Book, Florida Administrative Code (FAC) 15C-1.013 Translation of Foreign Documents, provides that motor vehicle documents or papers submitted to the department for registering and/or titling a motor vehicle, mobile home, or vessel, including proof of ownership documents, in a language other than English, must be accompanied by a written translation into the English language. The translation must be signed by the translator before a notary public. The translation shall be certified by the translator as being a true and accurate translation. The translator must also state on the translation that he/she has knowledge of the two languages or is fluent in the two languages, translates documents as a normal course of business, and that his/her translation of the document is accurate. The person translating the document(s) must be someone who has no previous or current ownership interest in the motor vehicle(s), mobile home(s), or vessel(s).

III. DOCUMENTATION AND SPECIAL INSTRUCTIONS:

To successfully issue a Florida Certificate of Title for a new or used motor vehicle, mobile home, or vessel purchased in or outside of Florida, the following documentation should be submitted to the tax collector’s office to be screened for completeness and accuracy:

A. Proof of Ownership:

The proof of ownership for a new motor vehicle, mobile home, or vessel is the MCO or its equivalent such as a statement of builder, which is only for vessels. If the vessel is purchased in a state that does not require an MCO, the proof of ownership is an executed dealer’s bill of sale.

When a motor vehicle is built in two stages, each manufacturer must provide a manufacturer’s statement of origin for each stage. Use the year, make, and weight from the 2nd stage MCO. Ensure that both ID numbers match.

If a franchise dealer stamps an MCO with the wording “used vehicle”, process as a used vehicle.
The proof of ownership must show a complete description of the motor vehicle, mobile home, or vessel and a complete chain of ownership to the applicant. The motor vehicle odometer disclosure must be completed on the MCO unless it meets one of the exemptions listed in DMS Procedure TL-09, Section II, B, 2.

See section IV, E, in this procedure for notarization requirements on an MCO.

The form HSMV 82994, Motor Vehicle Title Reassignment Supplement, must be used if the conforming MCO is not available at the time of the sale. The dealer’s information (name, address, and dealer license number) should be shown on the reassignment document.

2. The proof of ownership on a USED motor vehicle, mobile home, or vessel from out of state is the certificate of title from that state. If the motor vehicle, mobile home, or vessel was not required to be titled, then proof of ownership is a dealer’s bill of sale or the original registration from that state and a bill of sale from the seller to the purchaser.

The certificate of title, original vehicle/mobile home/vessel registration (if applicable), or bill of sale submitted as proof of ownership must be in the name of the applicant or must be properly assigned to the applicant. See Exhibit B or check the appropriate reference books for vessel titling requirements of other states.

B. A form HSMV 82040, Application for Certificate of Title with/without Registration, or HSMV 82041, Application for Vehicle/Vessel Certificate of Title and/or Registration, accurately completed by the applicant, to include the following:

1. The complete first name, full middle/maiden name, and last name for each owner. See DMS Procedure TL-01 for signature requirements.

   a. When co-owners wish to change the conjunction “OR” to “AND”, “AND” to “OR”, or reverse the order of their names as shown on their out-of-state certificate of title, they must either complete the certificate of title for transfer showing this change or submit an affidavit (signed by both) stating their request. This affidavit would serve as backup documentation for issuing the Florida title with the requested change in lieu of completing the out of state title for transfer. The application must reflect the requested change and be signed by both applicants.

   b. When there is not enough space to show all of the owners on the form HSMV 82040, Application for Certificate of Title with/without Registration or HSMV 82041, Application for Vehicle/Vessel Certificate of Title and/or Registration, additional forms (HSMV 82040), accurately completed, must be used.

   c. When an applicant wishes to apply for Florida Certificate of Title using a business name in conjunction with an individual, partnership, or corporation name and separate by using d/b/a (doing business as) it can lawfully appear on the certificate of title and registration.

**EXAMPLE:** John Smith d/b/a Smith Electronics of Florida.
2. Sex, date of birth must be shown for all owners.

3. Address of the applicant. If the mailing address and the street address are different, both must be shown unless the resident is an active duty member of the Armed Forces of the United States. If a Florida resident is using a post office box as a mailing address, the residential address must also be provided unless the resident is an active duty member of the Armed Forces of the United States.

4. If the application is in the name(s) of a natural person(s), a valid driver license or identification card issued by Florida or another state or a valid passport must be shown for all owners. If the applicant is a business, the federal identification number (FEID) is required, if applicable. Otherwise, verification that the business is authorized to conduct business in Florida or a Florida city or county business license or number should be submitted.

5. A complete description of the motor vehicle or mobile home including the make, year, body, color, weight, length, bhp/cc, GVW/loc, and identification number for vehicle makes manufactured in 1955 or later. Use the motor number for all vehicle makes manufactured through 1954.

A complete description of the vessel including the manufacturer’s name, year, type, hull material, propulsion, fuel, length, use of vessel, and hull identification number. If the vessel was manufactured November 1, 1972 or later, the hull number should be a properly formatted 12-digit number. For additional information concerning hull identification numbers, refer to “Hull Identification Numbers” (IV, C, of this procedure), Exhibit E or DMS Procedure VSTL-39.

6. If a lien is to be recorded, it must be noted in the space provided with the lienholder’s complete name, address, FEID/Driver License/Motor Vehicle account number, sex, and date of birth, as well as the date of the lien. The date of the lien is required if a lien instrument was executed prior to filing the notice of lien. The lien recording fee must be paid.

The lien must be shown on the form HSMV 82040, Application for Certificate of Title with/without Registration or HSMV 82041, Application for Vehicle/Vessel Certificate of Title and/or Registration. Additional liens must be filed using form HSMV 82139, Notice of Lien. The applicant(s) must sign the form used to record the lien.

Section 319.27(3) (a), Florida Statutes, provides, however, that a person may file a notice of lien for a motor vehicle or mobile home before a security agreement or lien document is executed. In this case, the date of the lien may be omitted since no legal instrument has been put into effect.

If the application contains an out-of-state certificate of title as proof of ownership, a “Transfer of Equity” is not allowed. However, the application for certificate of title can show the lien in the new owner’s name as long as a lien satisfaction for the previous owner accompanies the application. Be careful to ensure all valid liens are recorded properly.
If the lienholder shown on the certificate of title is an individual, the lienholder’s name should be in the following order reading first, middle, and last name.

7. Complete the odometer declaration section with odometer reading, date read, and status, if applicable. See DMS Procedure TL-09 for instructions.

8. When a Florida title record exists on a motor vehicle, mobile home, or vessel and the record IS NOT cancelled and an out of state title/registration is submitted as proof of ownership, do not issue a new title number and FL number (if applicable). Cancel the Florida title record and reinstate the record in order to use the same title and FL number (if applicable). When the Florida title record is already cancelled, reinstate the record in order to use the same title and FL number (if applicable).

9. When an applicant purchases a vessel from an individual (seller) who has always operated, used, or stored the vessel on a private lake or pond, it is not necessary for the individual (seller) to take title in his/her name before selling the vessel. The individual (previous owner) must provide an affidavit stating why the vessel was not titled.

C. A form HSMV 82042, Vehicle Identification Number (VIN) and Odometer Verification, accurately completed by the purchaser(s), with the motor vehicle identification number verified by one of the four officials shown on the lower portion of the form.

Form HSMV 82040, Application for Certificate of Title with/without Registration, may be used in lieu of the above listed form.

or,

An affidavit from the seller(s) and the purchaser(s) verifying that the motor vehicle identification number shown on the affidavit is identical to the motor vehicle identification number shown on the motor vehicle.

Verification is not required on any new motor vehicle, mobile home, trailer, or semitrailer with a net weight of less than 2,000 pounds, or any travel trailer, camping trailer, truck camper, fifth-wheel recreation trailer, or off-highway vehicle.

D. If a lien is shown on the proof of ownership, submit the proper lien satisfaction. If the lien has not been satisfied and there is no change in ownership, show lien information on an accurately completed form 82040, Application for Certificate of Title with/without Registration or HSMV 82041, Application for Vehicle/Vessel Certificate of Title and/or Registration.

E. Florida sales tax or specify sales tax exemption information on form HSMV 82040, Application for Certificate of Title with/without Registration or form HSMV 82041, Application for Vehicle/Vessel Certificate of Title and/or Registration.

F. The Florida license plate number transferred to or purchased for the motor vehicle, or a non-use affidavit. The mobile home decal number purchased for or the RP decal transferred to or purchased for the mobile home. A non-use affidavit is not acceptable for a mobile home. The Florida registration number transferred to or issued for the vessel or a non-use affidavit for a vessel, which is operated, used, or stored exclusively on private lakes and ponds and not on the waters of this state.

| G. When a Florida dealer sells a motor vehicle to an out of state/country resident, the dealer is no longer required to apply for title on behalf of that customer. The dealer now has the option to provide the customer with all applicable documentation, which would include the title or MCO completed for transfer to the purchaser. If the dealer chooses this option, the purchaser must sign a completed form HSMV 84061, Declaration Affidavit for a Motor Vehicle Which Will be Titled and Registered in Another State or Country. This form contains a declaration stating that the purchaser will title and register the motor vehicle in another state/country. When applicable, the completed and signed form will be retained in the dealer’s files.

H. Title fees.

IV. MISCELLANEOUS INFORMATION:

A. MCO:

1. When a conforming MCO is submitted as proper proof of ownership for a motor vehicle or vessel and more than one dealer is involved, reassignment from dealer to dealer must appear in sequence on the reverse side of the MCO; however, subsequent motor vehicle dealers must use form HSMV 82994, Motor Vehicle Title Reassignment Supplement (Florida dealer) or a separate dealer reassignment (out of state dealer), if the conforming MCO is not available at the time of sale. When all reassignments are used on the reverse side of the vessel MCO, subsequent vessel dealers may use a separate dealer reassignment form HSMV 82091, Reassignment Supplement to a Certificate of Title.

2. When a nonconforming MCO is submitted as proper proof of ownership for a motor vehicle and reassignment is being made to a retail buyer, form HSMV 82994, Motor Vehicle Title Reassignment Supplement, must be completed.

   However, when a conforming MCO is submitted as proper proof of ownership for a motor vehicle that is being reassigned to a retail buyer, the conforming MCO must be used. The form HSMV 82994, Motor Vehicle Title Reassignment Supplement or out of state secure dealer reassignment, must be used if the conforming MCO is not available at the time of the sale. Example: MCO held by floor planner, etc.

3. Subsequent reassignments may be made on form HSMV 82091, Reassignment Supplement to a Certificate of Title, or form HSMV 82994, Motor Vehicle Title Reassignment Dealer Supplement, as appropriate. Form HSMV 82091 may be used with motor vehicles that are exempt from the Federal Odometer Disclosure requirements. Form HSMV 82994 must be used with motor vehicles that require the Federal Odometer Disclosure statement.

4. A duplicate MCO is only acceptable if accompanied by an affidavit from the selling dealer on its letterhead stating that the original MCO was lost or destroyed and that the MCO has not previously been submitted with an application for certificate of title in any state. A duplicate MCO is acceptable without an affidavit when the original MCO was previously submitted to the department in error or as a new car non-delivery. The affidavit is not required, as this information can be verified in FRVIS.

### Division of Motorist Services

**PROCEDURE:** TL-10  
**SUBJECT:** ORIGINAL CERTIFICATE OF TITLE APPLICATIONS

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
</table>
| f. | A sworn affidavit from the seller and purchaser verifying the vehicle identification number shown on the affidavit is identical to the number shown on the motor vehicle.  

The purchaser may sign form HSMV 82042, part A, Vehicle Identification Number and Odometer Verification, verifying the identification number and the odometer reading in lieu of a separate affidavit.  

If you have an application involving repossession and the proof of ownership is an out of state title showing an out of state lienholder, see Procedure TL-23, II, D, #1, for VIN verification instructions.  

If you have an application for a certificate of destruction and there is NOT a current Florida record, the VIN MUST be verified by a Florida law enforcement officer ONLY.  

All USED vehicles coming into Florida from a foreign country, including dealer transactions, MUST have the VIN verified by a DMS Compliance Examiner. Out-of-country VIN verifications are checked through NICB. If results are returned showing a lienholder on record, the VIN verification will not be completed until an original letter on letterhead stationery, from the lienholder giving permission to have the motor vehicle titled is received. This does NOT include vehicles from American Samoa, Guam, Northern Mariana Islands, Puerto Rico, or Virgin Islands.  

Any Florida resident on active military duty out of state (applying for Florida title on a used vehicle with proof of ownership from a foreign country) is allowed to have his/her VIN verified by any out of state law enforcement officer or military law enforcement authority.  

2. VIN verification is NOT required on the following:  

   a. New motor vehicles regardless of whether purchased in Florida or out of state.  
   b. Mobile homes.  
   c. Trailer type recreational vehicles (travel trailers, camp trailers, truck campers, and fifth wheel recreational trailers).  
   d. Trailers and semi-trailers with a weight of less than 2,000 pounds.  
   e. Off–highway vehicles.  
   f. Vessels.  

TL-10-12
**Hull Identification Numbers (HIN):**

Section 328.07(1), Florida Statutes, states “No person shall operate, use, or store on the waters of this state a vessel the construction of which began after October 31, 1972, for which the department has issued a certificate of title or which is required by law to be registered, unless the vessel displays the assigned hull identification number affixed by the manufacturer as required by the United States Coast Guard or by the department for a homemade vessel or other vessel for which a hull identification number is not required by the United States Coast Guard.”

1. Manufacturers of vessels built exclusively for commercial purposes are not required by the United States Coast Guard to place a 12-digit HIN on the vessel. In some cases, the tax collector’s office should issue a state assigned HIN and advise the customer how to place it on the vessel.

3. The HIN must be carved, burned, stamped, embossed, or otherwise permanently affixed to the outboard side of the transom or, if there is no transom, to the outermost starboard side at the end of the hull that bears the rudder or other steering mechanism, above the waterline of the vessel in such a way that alteration, removal, or replacement would be obvious and evident.

3. HIN verification is not required each time a vessel is brought into Florida. However, if the vessel was built after 1972 and has only a partial HIN (less than 12 properly formatted characters) on the out of state title/registration, a pencil tracing should be submitted for verification of the HIN.

4. See Exhibit E for information on the proper format of a vessel identification number.

5. For additional information regarding HINs, refer to DMS Procedure VSTL-39.

**D. Courtesy Delivery:**

A courtesy delivery is defined as a retail purchase of a motor vehicle in another state, but physical delivery of the vehicle is made to the customer in Florida by a Florida dealer. When a Florida dealer is submitting paper work for an out of state dealer involving a “courtesy delivery”, the Florida dealership’s information must be shown on the form HSMV 82040 along with the wording “courtesy delivery”. The Florida dealer’s license number should also be entered into FRVIS (even though it is a courtesy delivery). This information may assist the DMS Regional offices and the Department of Revenue when auditing Florida dealerships. The Florida dealer should be collecting sales tax for the sale or submitting proof that the tax was paid to the out-of-state dealer. The Florida dealer should not enter their “Florida sales tax registration number” on the form HSMV 82040, as it makes them involved in the sale. Instead, they should submit any sales tax collected for the sale to the tax collector’s office or license plate agency along with the customer’s paperwork. However, if the dealership is an electronic filing system (EFS) agency, it may process it through the EFS. The lemon law fee would not be applicable.

If the out-of-state dealer reassigns to the Florida dealer on the reverse side of an MCO, it is NOT considered a “courtesy delivery.” Therefore, the Florida dealer should not show “courtesy delivery” on the form HSMV 82040 and should process as a regular dealer transaction within the required 30 days.
E. Notarization Requirements:

The requirement for notarization has been removed from all HSMV forms. The alternate method of making verified (or sworn) documents is set forth in section 92.525, Florida Statutes, and provides that a signed written declaration can substitute for a notarized oath if it contains the following language: “Under penalties of perjury, I declare that I have read the foregoing (document) and that the facts stated in it are true.” The written declaration must be printed or typed at the end of or immediately below the document being verified and above the signature of the person making the declaration.

By signing a document with that language, a person can make a sworn written statement without having it notarized. This statement can be used on affidavits and other generic forms prepared in-house. Please note that all affidavits, etc., must include a description of the motor vehicle, mobile home, or vessel including the VIN or the vessel HIN.

Notarization is not required for motor vehicles, mobile homes, or vessels on in state or out-of-state MCO’s or on an out-of-state title, even if there is a place for notarization.

F. Lemon Law Fee:

The Lemon Law fee applies to:

- New motor vehicles, which are sold by a Florida motor vehicle dealer or leased.
- New motor vehicles titled as used motor vehicles when purchased from a Florida dealer who is not authorized to sell new motor vehicles of that make, pursuant to s. 320.27(1)(c), F.S., (Independent Dealers).
- Demonstrator vehicles (if a manufacturer’s warranty was issued).

The Lemon Law fee does not apply to:

- New vehicles sold by an out-of-state dealer or out-of-state manufacturer.
- Used motor vehicles (except new motor vehicles titled as used motor vehicles when purchased from a Florida dealer who is not authorized to sell new motor vehicles of that make, pursuant to s. 320.27(1)(c), F.S.).
- Non-motorized and off-road motor vehicles.
- Motorcycles and mopeds.
- Trucks over 10,000 pounds gross vehicle weight.
- Vehicles titled to city, county, and state agencies.
- Vessels.
- Courtesy delivery (If the sale actually took place outside the state of Florida.)

The Lemon Law fee shall be collected from the consumer by a Florida motor vehicle dealer or by a person engaged in the business of leasing motor vehicles. This fee is assessed at the completion of the sale of a new motor vehicle or upon entering into a lease agreement for a new motor vehicle. All fees shall be deposited into the Motor Vehicle Warranty Trust Fund.
G. Purchase of a Motor Vehicle, Mobile Home, or Vessel by an Out-of-State Resident:

1. When a resident of another state purchases a motor vehicle, mobile home, or vessel in Florida for use in the resident’s home state, it is not subject to Florida Certificate of Title or registration even if the vehicle is financed by a Florida lending institution. The lien must be filed in the applicant’s state of legal residence. A Florida Certificate of Title will not be issued to record a lien for an out of state resident.

2. A resident of another state must apply for title in his/her state of residence, as he/she is not subject to a Florida Certificate of Title or registration.

Exceptions:

- When deceased instructions are applicable to a non-resident customer who is applying for a Florida title.
- A non-resident military member MAY apply for a Florida title using out-of-state or out of the country proof of ownership; however, the non-resident military member is not required to title the vehicle(s) in Florida. For registration information, refer to DMS Procedures RS-04 and RS-07.

If a non-resident military member purchases a motor vehicle out of the country and brings it to Florida with the out of country proof (requesting a Florida “registration only” in lieu of titling the vehicle), the non-resident military member must first obtain a title for the motor vehicle in his/her home state.

- When US Customs requires a vehicle to be titled to the purchaser prior to being shipped out of the country.

H. Low-Speed Vehicles and Mini-trucks (see DMS Procedure TL-63 for information).

I. It is permissible to add a name to a certificate of title application after the Florida or out-of-state certificate of title has been assigned to an applicant. If there is a lien, the applicant must have approval from the lienholder in the form of an affidavit on letterhead stationery from the lienholder.

J. Ownership of a Motor Vehicle, Mobile Home, or Vessel by a Minor:

There is no statutory age limit for ownership of a motor vehicle, mobile home, or vessel. The following is a list of those authorized to sign the application for certificate of title for the minor (under 18 years of age).

1. The minor.
2. The minor’s natural guardian.
3. The minor’s appointed guardian. The letters of guardianship must be submitted with the application. See DMS Procedure TL-20 for instructions of title transfers involving appointed guardians.

A certificate of title may be issued with the wording “(John Doe), as custodian for (name of minor), under the Florida Uniform Transfers to Minors Act” pursuant to Chapter 710, Florida Statutes. The customer must be created as a business.
**Restriction of New Motor Vehicle Certificate of Title Transactions to Franchised Dealers:**

A certificate of title to a new motor vehicle shall only be issued as “NEW” when a franchised dealer is authorized to sell the specific line make described on the manufacturer’s certificate of origin. If a dealer sells a motor vehicle it is not authorized to sell, it must be titled as “USED.”

A “New” motor vehicle certificate of title will not be issued for any new (MCO) private automobile where an independent dealer is involved.

**When a motor vehicle, mobile home, or vessel has been sold to an individual, a certificate of title must be issued in that individual’s name. The chain of ownership cannot be broken. The only exception to this rule is when the motor vehicle is transferred to a licensed motor vehicle dealer for resale purposes.**

**When a licensed Florida motor vehicle, mobile home, or vessel dealer uses a new motor vehicle, mobile home, or vessel as a demonstrator, the dealer is not required to obtain a Florida Certificate of Title in the name of the dealership.**

When a demonstrator motor vehicle, mobile home, or vessel is sold and an application for an original Florida Certificate of Title is processed in the name of the purchaser, the abbreviation “N” signifying new, will be shown in the “Previous State” field on the Florida Certificate of Title and current mileage will be shown.

**Florida Certificates of Title for 1980 and prior year make motor homes show the coach serial number as the vehicle identification number. Florida Certificates of Title for 1981 and later year make motor homes show the chassis serial number as the vehicle identification number.**

**When the seller signs the title over to the dealership during a consignment sale and the vehicle does not sell, the dealer must return the title to the seller. The dealership should give the seller an affidavit to submit with the title when the vehicle is finally sold stating that the dealership did not take ownership of the vehicle.**

If an application is received with an out of state certificate of title showing no outstanding liens and FRVIS reflects a previous Florida “paper” title record with an outstanding lien, the title application may be accepted without a lien satisfaction. The Florida title should be issued without a lien. However, if the previous Florida title record is displaying a current/active (not satisfied) “electronic lien” status instead of paper, do not process the title application. Contact the Field Support Help Desk for assistance.

**Section 319.23(6), Florida Statutes, requires a licensed dealer to file the purchaser’s application for title within 30 days from the date of delivery of the motor vehicle or mobile home to the purchaser. However, if the purchaser is a government entity, the dealership may give them the original MCO. The government entity may submit the MCO along with its application for certificate of title to a license plate agency for processing.**

If the out-of-state proof of ownership is branded “Salvage”, refer to TL-37, page 2, II, A, 1, c.
S. When an original application is received in this department containing an out-of-state certificate of title and the VIN or HIN must be corrected, the following is required prior to processing the application:

1. An original letter on letterhead stationary from the motor vehicle division of the state the certificate of title was last issued. The letter must state that the VIN or HIN on the certificate of title is incorrect. It should also state the correct VIN.

   or,

2. A corrected certificate of title issued by the state where it was previously issued.

   There may be situations when the VIN number can be verified as an obvious error (such as the National Automobile Theft Bureau (NATB) book or VIN edit shows that an “S” should be a “5,” etc.). A DMS Regional office administrator/supervisor has the authority to review and authorize the correction. You may accept written authorization from the DMS administrator/supervisor, on their letterhead stationery, in lieu of one of the two requirements listed above.

T. Open Titles

If one of the following applies to a title being submitted, it is considered an open title:

• A certificate of title is submitted for transfer WITHOUT the purchaser’s name being legibly shown somewhere in the “Transfer of Title by Seller” section.

• A certificate of title is submitted for transfer WITHOUT a selling price in the “Transfer of Title by Seller” section.

The license plate agency employee must circle the open area and stamp the title with their county stamp. This will serve as a red flag to other agencies this was previously an open title. The title must be accompanied by an original or certified copy of the bill of sale signed by the seller and purchaser, which includes the name of the purchaser, the selling price, and a complete description of the motor vehicle, mobile home, or vessel or form HSMV 82050, Notice of Sale and/or Bill of Sale for a Motor Vehicle, Mobile Home, Off-Highway Vehicle or Vessel (Section 1, 2, if applicable, & 3), completed by the seller and the purchaser.

If the purchaser is unable to locate the seller to obtain a bill of sale, refer to DMS Procedure TL-07.

If the odometer disclosure area on the title is not completed and signed, it is not considered an open title. Therefore, an original or certified copy of the bill of sale would NOT be required. For information relating to odometer disclosure omissions for non-exempt vehicles, refer to DMS Procedure TL-09, II, J, 1.

U. If an out of state title is received showing an Indian tribe’s name as the state/nation, such as “Cherokee Nation (from OK.),” “Caddo Nation Certification of Vehicle Title (from OK.),” etc., it is NOT acceptable. The individual must have a certificate of title issued in the tribe’s “state” (OK, MN, etc.) of residence, prior to applying for a Florida title.
## ORIGINAL CERTIFICATE OF TITLE APPLICATIONS

### V.
If an application is submitted with a California “Certificate of Title” showing a brand of “SALVAGED”, it has already been rebuilt in that state. Therefore, process the application for certificate of title using the brand of “rebuilt.” An inspection is not required.

However, if a California “Salvage Certificate” (in lieu of a title) is received with the notation of “salvaged”, it has not been rebuilt in that state. Therefore, the customer must be referred to a Florida DMS regional office serving their county of residence in order to comply with the “rebuilt process.”

### W.
If an application for an original certificate of title is submitted along with a clear (non-branded) out-of-state certificate of title in the name of an insurance company or completed for transfer to an insurance company, it must be determined if the vehicle was a prior recovered intact theft or a total loss due to damage. A letterhead affidavit must be submitted from the insurance company stating the reason their name is on the out-of-state title. If the vehicle was a recovered theft or a total loss due to damage, refer to DMS Procedure TL-36 or TL-37 for additional information.

### X.
If an organization raffles off a NEW vehicle, the dealer can assign the MCO directly over to the winner, as the organization is buying the vehicle for the winner. However, if the vehicle was donated to an organization and they raffle the vehicle, the organization must take title in their name before transferring it to the winner.

### Y.
“Bonded” titles from other states are acceptable as valid proof of ownership with a copy of the surety bond.

### Z.
When a motor vehicle is a long-term lease (12 months or more), the vehicle use code of “Long-Term Lease” must be used. “Private” will print on the face of the certificate of title and the reduced title fees will be charged. The registration must be issued to the lessee/registrant leasing the vehicle, unless the vehicle’s class code is NOT “registrant possible.” See RS-53, III, A, for instructions to determine if a vehicle is registrant possible.

### AA.
When a motor vehicle is a short term lease (less than 12 months), the vehicle use code of “Short-Term Lease” must be used. “Lease” will print on the face of the certificate of title and the reduced title fees will be charged. The registrant may be the same as or different than the owner (according to the customer’s documentation and the vehicle’s class code being “registrant possible”).

### BB.
When a vehicle has ceased to be used for lease purposes and the applicant wishes to remove “Lease” from the title at the time of transfer, see DMS Procedure TL-11.

### CC. SELECTING THE APPROPRIATE FRVIS FIELD:

1. The following body types are to use the trade name:
   - Air Compressor – AI
   - Bush Chipper – BC
   - Camp Trailer – CA
   - Classroom Trailer – CL
   - House Trailer (Mobile Home) – HS
   - Tree Spade – TS
   - Welding Machine Tool – WM
   - Residential Manufactured Building (Modular Home) - MD

When entering in FRVIS, go past the “make” field to the “in-house” field and type in the first four digits of the trade name.

2. The following body types are to use the Manufacturer’s name:
   - Storage Trailer – SR
   - Tank – TN
   - Trailer – TL

When entering in FRVIS, go to the “make” field and locate the name of the manufacturer to select.

### DD. The following link allows a manufacturers identification code (MIC) to be checked:

http://www.uscgboating.org/recalls/mic1.aspx

### EE. An “Original Certificate of Title Application Check List” is attached to this procedure as Exhibit A.

### FF. “Proof of Ownership on Motor Vehicles, Mobile Homes and Vessels For All States” is attached to this procedure as Exhibit B.

### GG. A “Definitions” page is attached as Exhibit C.

### HH. An example of the Penalty Fee is attached as Exhibit D.

### II. “Format of Vessel Hull Identification Number” chart is attached as Exhibit E.

### JJ. A list of “Frequently Asked Questions and Answers” is attached as Exhibit F.

### KK. A conversion chart “Information Concerning Conversion of Watts to BHP When Titling an Electric Motorcycle” is attached as Exhibit G.

TL-10-19
### Historical Revision:

09/18/15: Updated procedure and added information relating to manufactured residential buildings (modular homes) on page 5, 6, 11, 8, and 19.
Division of Motorist Services

EXHIBIT A

ORIGINAL CERTIFICATE OF TITLE APPLICATION CHECK LIST

FORMS

_______ HSMV 82040 or 82041

_______ HSMV 82042 required for used motor vehicles. Form HSMV 82040, may be used in lieu of the above listed form. (Verification must be completed by DMS Compliance Examiner if out of country proof of ownership is submitted.)

_______ Out-of-state proof of ownership for used motor vehicles, mobile homes or vessels.

OR

_______ MCO for new motor vehicles, mobile homes or vessels

OR

_______ Release from Documentation for previously documented vessel and an executed bill of sale from the seller to the purchaser, if the last documented owner is someone other than the applicant

_______ Lien satisfaction(s)

_______ Florida sales tax or specify sales tax exemption information on form HSMV 82040 or form HSMV 82041.

_______ Florida license plate number, non-use affidavit, mobile home decal, RP decal, or a Florida vessel registration number.

_______ Title fees

DEFINITIONS

CERTIFICATE OF TITLE  A record that serves as evidence of ownership of a vehicle, whether such record is a paper certificate authorized by the department or by a motor vehicle department authorized to issue titles in another state or a certificate consisting of information stored in electronic form in the department’s database.

CONFORMING  A document containing a federal odometer disclosure statement.

COURTESY DELIVERY  A motor vehicle purchased out of state that is delivered to a retail customer by a Florida dealer. The Florida dealer is not shown on the title.

LEASE  A contract which allows the use of a motor vehicle for a specified term and rent.

LESSEE  A person or company that has a motor vehicle or property leased.

LESSOR  A person or company that owns the motor vehicle or property that is leased.

LOW SPEED VEHICLE  Any four-wheeled electric vehicle whose top speed is greater than 20 miles per hour but not greater than 25 miles per hour, including neighborhood electric vehicles. Low-speed vehicles must comply with the safety standards in 49 C.F.R. § 571.500 and § 316.2122, as defined in section 320.01(42), Florida Statutes.

MSO/MCO  MANUFACTURER’S STATEMENT OF ORIGIN/MANUFACTURER’S CERTIFICATE OF ORIGIN. Initial ownership documentation on a new motor vehicle, mobile home or vessel.

NON-CONFORMING  A document that does not contain all the elements of a federal odometer disclosure statement.

PENALTY FEE  A fee charged when proof of ownership is not transferred within a specified time frame.

VIN  Motor Vehicle or Mobile Home identification number.

HIN  Vessel HULL identification number

RECIPROCITY  A mutual exchange of privileges.

BHP/CC  Brake Horse Power/Cubic Centimeters

GVW/LOC  Gross Vehicle Weight/Mobile Home Location Code
Pursuant to s. 319.23(6), Florida Statutes, a penalty fee is required when the owner fails to transfer the certificate of title within 30 days. The 30-day period begins on the day AFTER the manufacturer’s certificate of origin or certificate of title is completed for transfer and the motor vehicle is delivered to the purchaser. The date of sale to the retail purchaser determines the penalty date. The penalty fee does not apply when titling any vessel(s) coming in from another state.

Example: The Manufacturer’s Certificate of Origin or certificate of title is signed over on May 3rd. The purchaser comes into the license plate agency to register the motor vehicle on June 3rd. The penalty fee is due.

*Key to month of production for model year format:
A-August D-November G-February J-May
B-September E-December H-March K-June
C-October F-January I-April L-July
Format for Hull Identification Number:

For pleasure craft vessels manufactured **November 1, 1972 or later, but prior to August 1, 1984**, each hull identification number must consist of 12 characters uninterrupted by slashes, hyphens, or spaces, as follows:

1. The first three characters must consist of a manufacturer’s identification code or state code (FLZ). The manufacturer’s code is assigned by the U.S. Coast Guard and the state code assigned by the Department.

2. Characters 4 through 8 are assigned by the manufacturer and must be letters of the English alphabet or Arabic numerals or both. The letters I, O and Q are not acceptable for use.

3. Characters 9 through 12 must indicate the date of certification. The characters must be either:
   
   a. Arabic numerals with characters 9 and 10 indicating the month, the characters 11 and 12 indicating the last two numerals of the year (referred to as “straight year” format; or

   b. A combination of Arabic numerals and letters of the English alphabet with character 9 being “M” signifying this as the “model year” method; characters 10 and 11 indicating the last two numerals of the model year; and character 12 being an alphabetic letter “A” through “L”, representing the month of the model year. August is the first month of the model year and is represented by the letter “A”, with September by the letter “B”, October as “C”, and so on until the last month of the model year being July as “L”.

   c. The characters of the Hull Identification Number must be no less than one-fourth of an inch in height.

A manufacturer may display additional characters after the 12 characters required if they are separated by a hyphen.

**Example: ABC456781073-C250**

For vessels manufactured **after August 1, 1984**, each hull identification number must consist of 12 characters uninterrupted by slashes, hyphens, or spaces, as follows:

1. The first three characters must consist of a manufacturer’s identification code or state code (FLZ). This manufacturer’s code is assigned by the U.S. Coast Guard and the state code assigned by the Department.

2. Characters 4 through 8 are assigned by the manufacturer and must be letters of the English alphabet or Arabic numerals or both, except the letters I, O, and Q.

3. Character 9 must be indicated using letters of the English alphabet. This letter represents the month of manufacture with January designated by the letter “A”, February by the letter “B”, March as “C”, and so on until the last month of the year, December, is designated by “L”.

**TL-10**
EXHIBIT E (Page 3 cont.)

4. Character 10 must be an Arabic numeral and represents the last digit of the year of manufacture.

5. Characters 11 and 12 must be Arabic numerals and represent the last two digits of the “model year” such as “84” for 1984, and “85” for 1985. However, the model year should not exceed the year of manufacture by more than one year.

Example: ABC45678A485, indicating the vessel was manufactured in January, 1984, as a 1985 model year vessel.

6. On the vessel’s transom, a manufacturer may display additional information. If the additional information is displayed on the vessel within two inches of the hull identification number, that information must be separated from the hull identification number by means of borders or must be on a separate label so that it will not be interpreted as part of the hull identification number. For title application purposes, only the primary characters (first twelve) will be utilized.

Manufacturers had the option of using the “new” format for hull identification numbers as of January 1, 1984, but by Federal regulation they are mandated to use the “new” format after August 1, 1984.
FREQUENTLY ASKED QUESTIONS AND ANSWERS

1. Q. Can a licensed motor vehicle dealer (not licensed as a vessel dealer) take a vessel in on trade for resale and reassign the title to the new buyer?
   A. A motor vehicle dealer cannot reassign a vessel title to a new buyer. The dealership would be required to take title in the dealership’s name prior to selling the vessel. A vehicle dealership is only licensed to deal in specific items (i.e., vehicles). Therefore, they cannot sell miscellaneous items such as vessels, even if they take them in on trade. The dealership must indicate on the form HSMV 82040 that the vessel is in their inventory for resale, so sales tax would not be due. The registration should be transferred with a registration use of “non-use,” so the FL number can be transferred and no base tax charged.

2. Q. Can a vessel dealer (not licensed as a motor vehicle dealer) take a motor vehicle in on trade for resale and reassign the vehicle title to the new buyer?
   A. A vessel dealer cannot reassign a motor vehicle title to a new buyer. They must take title in their name prior to selling the vehicle. The dealership must indicate on the form HSMV 82040 that the vehicle is in their inventory for resale, so sales tax would not be due.
EXHIBIT G

INFORMATION CONCERNING CONVERSION OF WATTS TO BHP
WHEN TITLING AN ELECTRIC MOTORCYCLE

- If the motorcycle is electric, the MCO must state the displacement of the engine in watts or brake horse power (bhp).
- If the motorcycle is gas powered, the MCO must state the displacement of the engine in cubic centimeters (ccs).

CHART FOR WATTS, BHP AND CCs

Use the chart below to assist you when you receive a MCO for an electric motorcycle displaying watts for the engine displacement. The watts must be converted to BHP for entry into FRVIS (BHP cannot be converted to CCs). The following is the conversion for watts to BHP:

Conversion of watts to BHP is:  Watts X 0.00134 = BHP

Example:  1500 watts multiplied by 0.00134 = 2.01 BHP.

<table>
<thead>
<tr>
<th>Engine Output in Watts</th>
<th>Engine Output in brake horse power (bhp)</th>
<th>Engine Displacement in cubic centimeters (ccs)</th>
<th>Type of Vehicle</th>
<th>Manufacturers, Importers, and Distributors must be licensed by the Department</th>
<th>Dealer or person must be licensed by the Department as a franchise dealer</th>
</tr>
</thead>
<tbody>
<tr>
<td>1492 Watts or less</td>
<td>2.0 bhp or less</td>
<td>50 ccs or less</td>
<td>Motorcycle</td>
<td>YES</td>
<td>NO</td>
</tr>
<tr>
<td>Greater than 1492 Watts</td>
<td>Greater than 2.0 bhp</td>
<td>Greater than 50ccs</td>
<td>Motorcycle</td>
<td>YES</td>
<td>YES</td>
</tr>
</tbody>
</table>

A motorcycle manufacturer, importer, or distributor must meet the licensing requirements with the Department regardless of the engine displacement.

A MCO with an engine output greater than 1492 Watts or greater than 2.0 bhp will be considered a motorcycle with an engine displacement greater than 50 ccs. Therefore, the franchise dealer must be licensed.

A MCO with an engine output of 1492 Watts or less or 2.0 bhp or less will be considered a motorcycle with an engine displacement of 50 ccs or less. Therefore, the franchise dealer does not have to be licensed.

The following information is required on a motorcycle MCO.

- Name of the manufacturer registered with National Highway Traffic Safety Administration (NHTSA) on the top of the MCO;
- Correct Vehicle Identification Number (VIN) as assigned by NHTSA;
- Correct National Crime Information Center (NCIC) assigned line-make under the “make”;
- Correct body type;
- Correct displacement (can be stated anywhere on the MCO) expressed in ccs if the vehicle is a gas powered motorcycle, or correct displacement in watts or bhp if the vehicle is an electric motorcycle;
- Name of the licensed manufacturer, distributor, or importer with their address and signature (officer authorized representative or agent) at the bottom of the MCO;
EXHIBIT G (continued)

- Name and address of the licensed franchise dealer in the middle of the MCO if the vehicle is a motorcycle greater than 50 ccs, greater than 2 bhp, or greater than 1492 watts;
- Name of the purchaser in the middle of the MCO if the vehicle is a motorcycle 50 ccs or less, 2 bhp or less, or 1492 watts or less.
